WORG NG. LIMITED

An Executive Summary on Agri-Business

// About Us

Innovation for the Agri-Business Ecosystem

At WORG NG, we are pioneers in the agri-business sector, specializing in the production, processing, and exportation of agricultural produce sourced from Nigeria.

By implementing the highest farming standards and cutting-edge supply chain management, our mission is to deliver agricultural goods that surpass international benchmarks.

We are at the forefront of digital innovation, utilizing technology to revolutionize Nigeria's agricultural landscape. Acting as a bridge between traditional farming methodologies and modern practices, we embody the fusion of heritage with contemporary solutions.

Our esteemed Board and Management team comprises seasoned professionals, each offering a wealth of expertise and experience to drive our vision forward.

// Nigerian Agriculture

The Challenges

A Land tenure system that constrains access to farm land

Inefficient Government Funding structure with leakages.

Farming is not Mechanized. Thus making it difficult to scale.

An unstructured value chain being unattractive for viable investments.

Lack of standardization which limits commercial success of agricultural produce.

Absence of viable data limiting the growth of Agriculture

Needs Assessment

To efficiently transition the role of small holder farmers by aggregating them and commercializing their processes

To make the different components of the value chain viable and attractive for both investments and financing.

The standardization of processes and output with the aim of ensuring market success in local and international trade.

Develop the required data base that will aid policy formulation, and better decision making

//Our Business

AGRICULTURAL (CROP) PRODUCTION

Combining Commercial Agriculture methods with the out growers scheme to upscale and standardize production

SUPPLY CHAIN MANAGEMENT

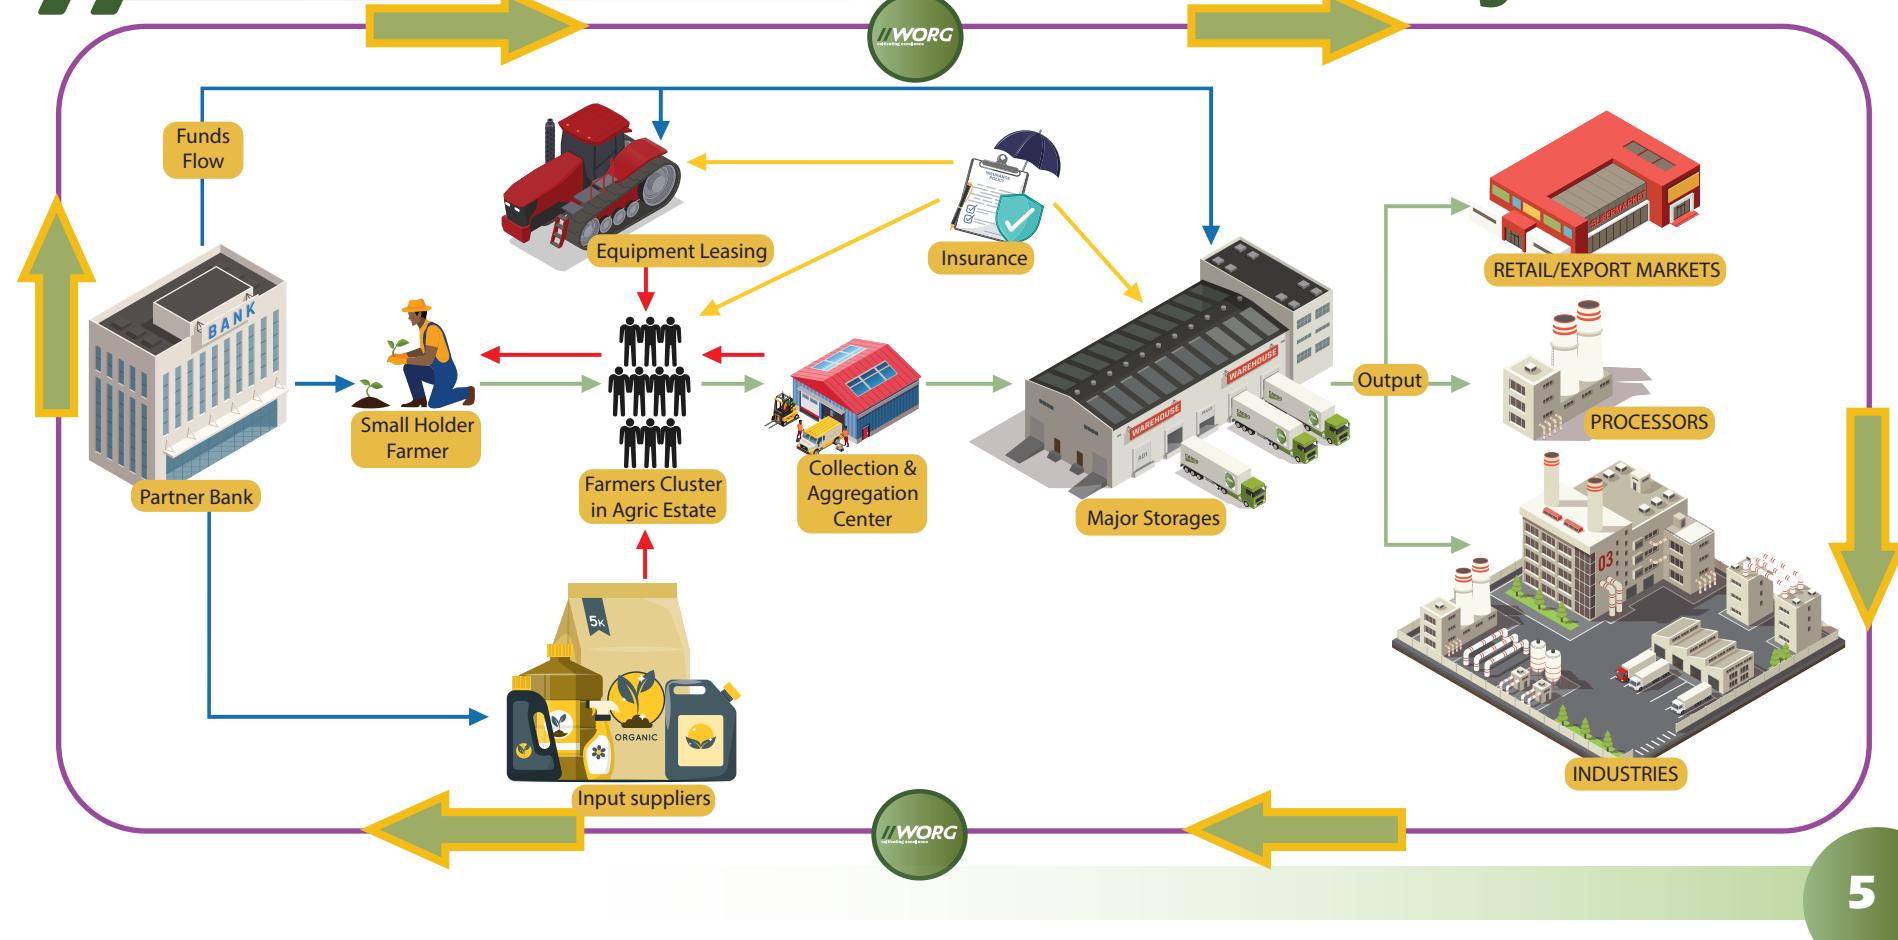

Creating a seamless flow of:

1. Farm inputs to farms thus ensuring quality produce.
2. Farm Produce to Storage to reduce post Harvest losses
3. Farm produce to target market

BUSINESS DEVELOPMENT

Accessing Target Markets that require farm produce; creating a structure to bridge demand gap; providing a pricing model that benefits all actors in the agric eco-system and off takers thus enhancing trade.

//Our Solution - WORG NG. Ecosystem

// One Strategy - Multiple Symbiotic Benefits

The following are the benefits of the WORG NG. Agric Ecosystem Strategy

The Organized Ecosystem provides an attraction for Impact Investors and Development Finance Institutions eager to finance the agric sector

With the Ecosystem completely ring-fenced provides ease of different businesses within the value chain to plug into the ecosystem access & exchange financial instruments

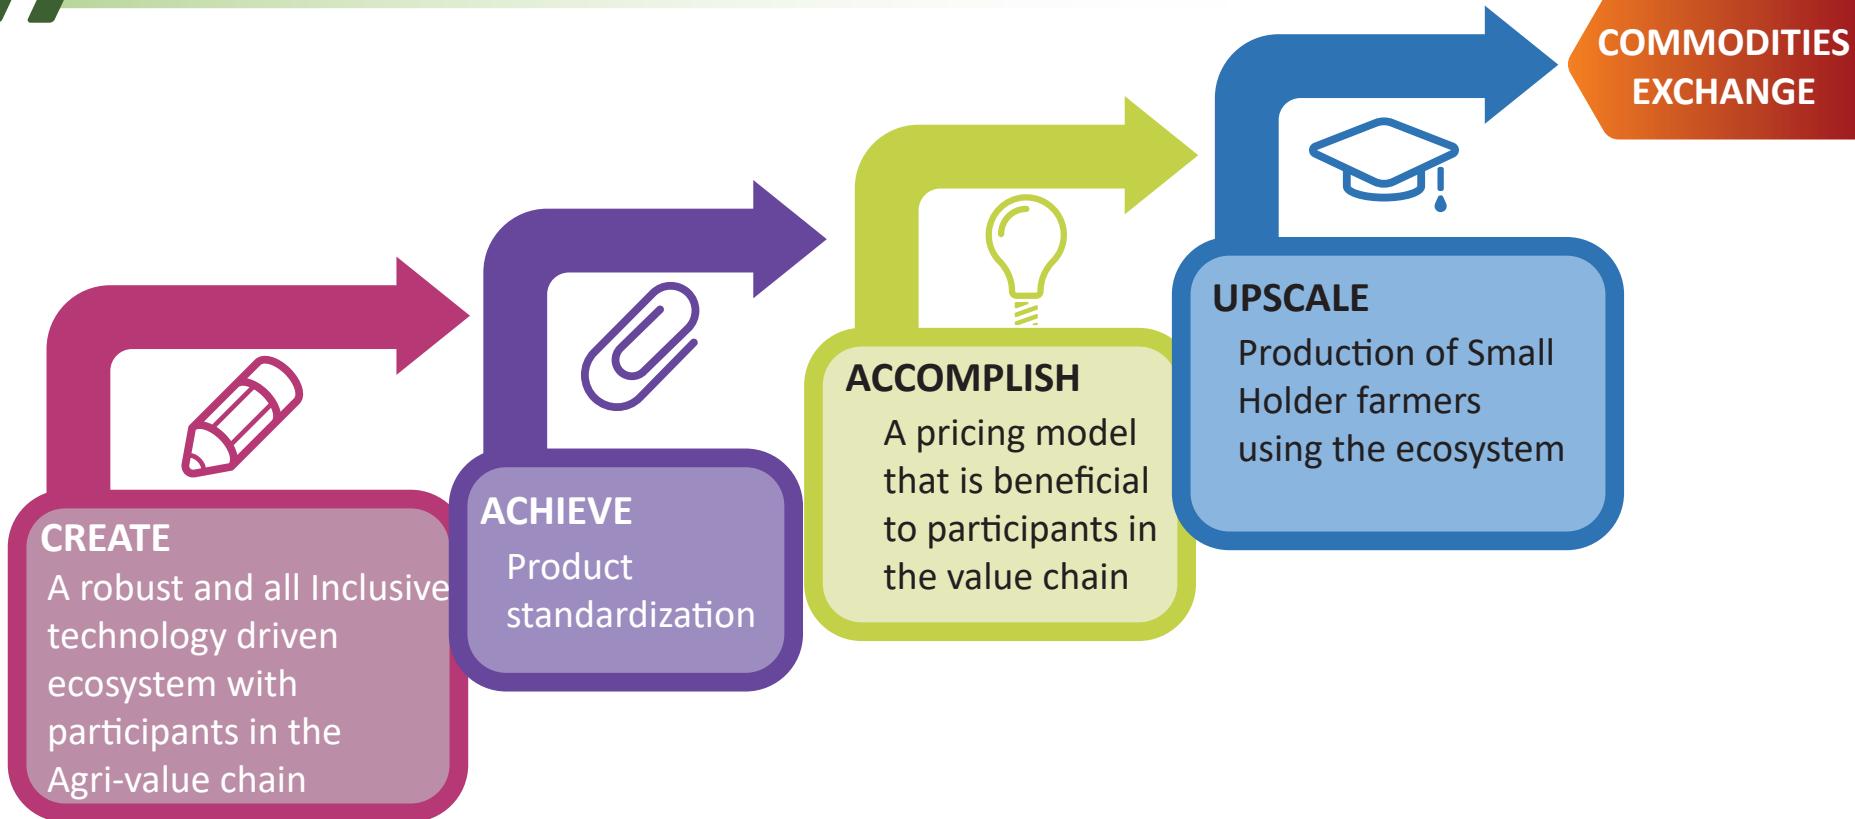

//Fundamentals of our Business Model

- » Identifying contiguous land for agriculture.
- » Aggregating farmers into formal structures in those localities.
- » Aggregating infrastructure and machinery into an ecosystem to support production and storage.
- » Facilitate trade with processors and end users
- » Provide a platform for investments and financing different aspects of the value chain.

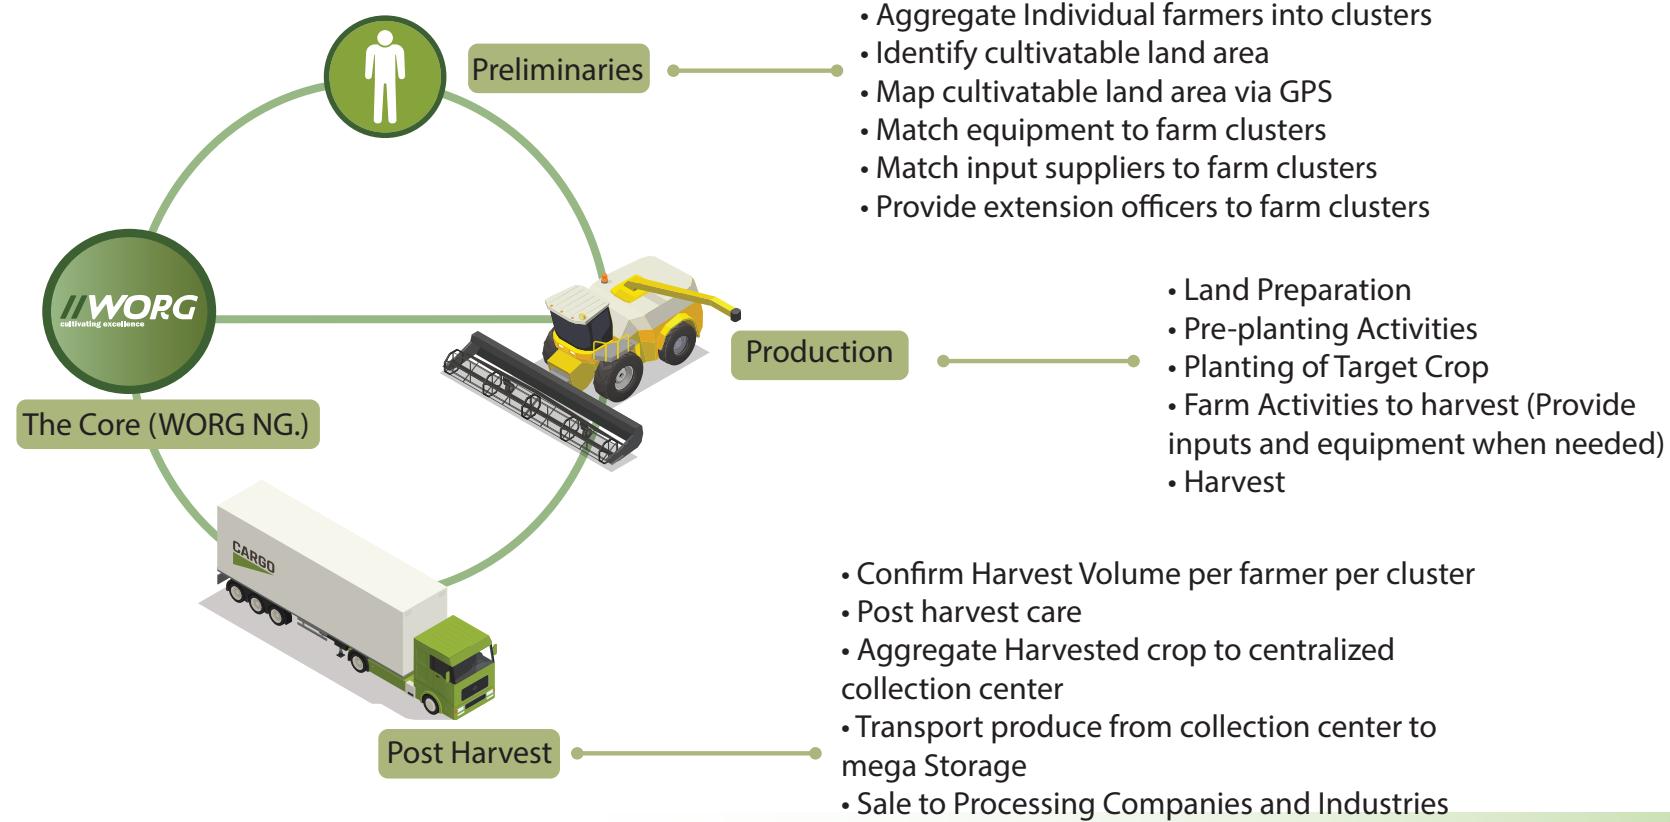

// Our Goals

TO ACHIEVE 5 MILLION HECTARES UNDER MANAGEMENT IN AN ECO-SYSTEM

//Approaching the Farm Business

// NUCLEUS - WORG NG. Agri Business ERP

// ...introducing NUCLEUS

WORG NG's one stop Tech Hub for Farm Management

DASHBOARD VISUALIZATION

Simplifying Complexities

//Executive Profile

Olufemi Opadiji is the Founder and CEO of **WORG NG. Limited**, a visionary leader with over 19 years of experience spanning business development, risk management, financial analysis, and strategic operations. Known for his analytical depth and managerial acumen, he has consistently driven transformative results across the financial and agri-business sectors.

Born in Jos, Plateau State, Olufemi holds a B.Tech in Industrial Chemistry from Abubakar Tafawa Balewa University. He began his career at Guaranty Trust Bank in 2005 and went on to hold key roles at Skye Bank and Heritage Bank. At Heritage, he played a pivotal role in the 2014 acquisition of Enterprise Bank and later served as Group Head, where he led high-impact transactions and shaped corporate strategy.

Olufemi's career is marked by a commitment to innovation, excellence, and inclusive growth. Through WORG, he channels his expertise into building scalable solutions that address systemic challenges, and drives sustainable economic development across Africa.

Executive Profile

Byencit Esther Gomwalk is a seasoned legal and conflict resolution professional whose expertise spans public service, legal advocacy, and trauma-informed community engagement. She joined **WORG NG. Limited** in 2025, bringing with her over two decades of experience rooted in justice reform, social development, and peacebuilding.

Born in Jos, Plateau State, Barrister Gomwalk holds a Barrister-at-Law (BL) from the Nigerian Law School. She also earned an M.Sc. in Conflict Management and Peace Studies from the University of Jos Postgraduate School, with additional certifications in trauma support, violence prevention, and psychosocial first aid.

Her professional path includes nine years at the Ministry of Justice, where she served as a public counsel with a focus on equitable access to justice. Currently with Mentor Chambers, she continues to provide legal leadership while mentoring young lawyers and advancing gender-based violence advocacy.

At **WORG**, she plays a critical role in shaping community-facing strategy, ensuring that policies and interventions remain people-centered and inclusive. Her deep understanding of conflict dynamics and rural sensitivities strengthens **WORG**'s approach to building sustainable, socially responsive agricultural ecosystems.
